

St. Matthew's CE Primary School
School Overall Curriculum Policy Statement

Vision

A caring environment for children to gain confidence and develop independence.

Mission

The governors and teachers at St. Matthew's School aim to create a secure and caring environment in which children can experience success. The value of personal, social and moral development is taught within a broad and balanced curriculum.

Aims

- To provide stimulating activities and tasks,
- To set targets within each year group,
- To develop high expectation of individuals' performance,
- To demonstrate a caring, respectful attitude towards each other within the community,
- To encourage the tolerance of opinions and beliefs.

GUIDELINES

Curriculum development

Curriculum content, organisation and documentation is continually under review in order to fulfil legislative requirements, the revised National Curriculum and the changing needs of the school. The review of all curriculum policies will take place within a three-year period as laid out in the School Development Plan. The coverage of the National Curriculum is organised within continuous, blocked and linked units of work. We have developed a framework plan for each year group. This gives a brief indication of what is taught within each curriculum area and makes cross-curricular links to the rotational topics. We have developed Curriculum Maps and Schemes of Work based on year group planning, for each area of the curriculum.

Curriculum Objectives

- To provide opportunities and activities for children to communicate through speech and writing, and to listen with understanding.
- To provide stimulating reading material that enables children to read accurately, fluently and with understanding for their enjoyment.
- English is applied in all subject areas and enables children to articulate their understanding and learn with enthusiasm and independence.
- To assist in children's understanding and knowledge of mathematical language and the processes that they apply in a variety of tasks
- To provide opportunities for children to explain the pattern and relationships that form the basis of mathematics.
- To develop mathematical skills and apply them to practical solutions through problem solving and investigations.
- Mathematics is applied to other subject areas and enables children to develop enjoyment, interest and a positive attitude towards mathematical understanding.
- To encourage the development of scientific understanding through activities and discussion that provide systematic enquiry within a range of experiments and investigations of everyday life. The opportunities we give for question raising in science enable children to use and understand scientific concepts and vocabulary.
- We give children opportunities to experience their own environment and the wider world both past and present through (Geography, History, RE, Art and DT)
- We encourage flexibility and creative thinking in overcoming difficulties and developing new approaches through investigation.

- Children` should approach tasks and activities with enjoyment, independence and interest in practical solutions to learning situations, with independence of thought and action as well as co-operating within a group.

Curriculum Organisation

Oracy, Literacy, Numeracy and Information Technology are skills that run through the whole of the curriculum. In addition a considerable part of each week is given to teaching Mathematics and English as individual subjects and aspects of these are planned in a continuous sequence of lessons or activities.

Long term planning

We have Curriculum Maps for subjects when they are considered within the School Development Plan. These maps identify knowledge, skills and understanding, and the progression of learning throughout the school.

Medium term planning

Subject co-ordinators plan termly or half termly to identify learning objectives that link to the National Curriculum and the schools Curriculum Framework. They organise Schemes of Work to indicate: activities, learning outcomes, resources, differentiation, learning styles and assessment opportunities. Year groups plan detailed classroom activities and assessment strategies. The MTP's become part of the Long Term Planning documents.

Short term planning

Teachers plan and organise their teaching within the agreed medium term planning on a weekly basis.

Teaching Approaches

Teachers employ different teaching styles to suit the ability of each child across the curriculum. It may be appropriate to teach the whole class or work with a small group and occasionally with individual children. It is the differentiation of teaching inputs and learning outcomes that we consider vital to effective learning. Reference is made to multicultural issues, equal opportunities and gender equality in the R.E. curriculum policy document.

Access and Entitlement

We believe that every learner is entitled to a full range of activities that gives access to the curriculum. We take account of unequal starting points and provide learning experiences that are planned to ensure breadth and depth, enabling progression through the school of every individual irrespective of gender, ethnic background, age or disability. We aim to empower learners through the curriculum to become confident in their abilities that will prepare them for a purposeful adult and working life.

Progression

The links we foster between each class in the school and between this school and the next include

- Planned continuity found in the Curriculum Framework pupil profiles
- Liaison with Secondary Schools.
- Specific issues relating to the under five's Early Year profiling and home school links are found in the Early Years policy statement and within the schools Curriculum Framework and Map.

Staff Roles and Responsibilities

Staff have responsibility to a curriculum area to implement policy, monitor development and assist in the planning of the curriculum. The deputy head teacher will monitor the whole curriculum across the key stages for consistency. Joint planning and moderation of children's work. In addition to this further monitoring is conducted through focused classroom visits by the head teacher subject Leaders:

- Termly meetings of whole staff to ensure consistency and continuity across year groups and key stages.
- Governors are regularly invited to participate in observing the prioritised curriculum areas in order to make 'Curriculum Committee' evaluations of our success.

St. Matthew's CE Primary School
School procedure for dealing with complaints about the School's Curriculum

RATIONALE

The governors and teachers at St. Matthew's School aim to create a secure and caring environment in which children can experience success. The value of personal, social and moral development is taught within a broad and balanced curriculum.

CONTEXT

All Local Authorities (LA's) have to set up procedures for handling complaints about the actions of governing bodies and LA's on the curriculum. Parents may use the complaints procedure if they believe that either the LA or the Governing Body is failing:

- To provide the national curriculum in the school for a particular child;
- To follow the law on charging for school activities;
- To offer only approved qualifications and syllabuses;
- To provide RE and daily collective worship;
- To provide information that they have to provide;
- To carry out any other statutory duty relating to the curriculum;
- To act reasonably in any of the above cases

COMPLAINTS AGAINST THE GOVERNING BODY

Complaints against the Governing Body will be considered within the framework of the formal procedure that is already in place to deal with complaints against the school and to any community facilities or services that the school provides. This framework allows for complaints to be handled in both an impartial and non-adversarial manner, and in an open, transparent and constructive way.

Complaints against the Governing Body must be made in writing and will be acknowledged as soon as they are received. Once received it is likely that the complaint will be delegated to either a named governor (e.g. the Chair of the Governing Body) or to a complaints panel previously convened by the full Governing Body. The complaint will be investigated as soon as practicable in timescales agreed by all parties.

The complainant shall receive full written feedback of the Governing Body's/Named Governor/Complaints Panel's consideration of their complaint and the decision to either uphold the complaint in full or in part or, dismiss the complaint in full or in part. Changes may also be recommended to the schools systems or procedures to ensure that problems of a similar nature do not occur in the future.

COMPLAINTS TO OR AGAINST THE LOCAL AUTHORITY (LA)

If on receiving the Governing Body's decision the complainant is still not satisfied, they can refer their complaint to the Local Authority. However the remit of the LA is to review the procedures followed and satisfy itself that the complaint has been dealt with appropriately rather than to make a judgement on the decision made by the governing Body.

Complaints that are just about the LA's powers or functions only need to be considered by the LA.
